

TECHNOVATION

Judge Bronze

(reviewed a minimum of 5 submissions)

Thank you for serving as a Judge for the Technovation Girls 2025/2026 season.

You contributed scores across two rounds of judging, supporting the evaluation of over 3,600 team projects from builders working on technical solutions to problems in their communities. Your feedback helped these teams see themselves as courageous, capable, and hopefully inspired them to keep building. That is the power of judging, and we appreciate how you showed up for teams around the world.

Your hours of evaluation contributed to UN Sustainable Development Goals 4 (Quality Education) and 5 (Gender Equality).

We are honored you joined these builders for part of their journey, and we hope this is just the beginning.

Thank you.

Tara Chklovski, Technovation Founder & CEO
