

TECHNOVATION

Club Ambassador

Thank you for serving as a Club Ambassador in season.

for the Technovation Girls 2025/2026

You brought Technovation Girls to your community and supported countless teams who built applications and AI tools for the issues they care about. You also grew a local network of Mentors and role models who will outlast any single season.

This work sits at the intersection of education, technology, and social impact, and we know it asks a lot. Project management, resource coordination, team leadership, strategic judgment. You delivered on all of it, and the builders in your community are the proof.

We are honored to be part of your journey, and we hope this is just the beginning.

Thank you.

Tara Chklovski, Technovation Founder & CEO

Building innovators *for life*
